

## Activity Type

Vocabulary Game:  
guessing vocabulary from  
clues (group work)

## Focus

Vocabulary revision

## Aim

To guess words from  
clues given by the  
teacher.

## Preparation

A copy of the clues

## Level

Intermediate (B1-B2)

## Time

25 minutes

## Introduction

This ESL vocabulary game comes from an English TV game show. The game can be used as a general knowledge quiz or to revise vocabulary.

## Procedure

Draw a five-by-five hexagon on the board.

Write a different letter of the alphabet in each hexagon.

Divide the class into two teams.

Allocate each team with a colour, e.g. red and blue.

The two teams then decide which direction they want to play - top to bottom or left to right.

The aim of the game is to connect the hexagons from one side of the grid to the other.

Tell the students that this is a fairly strategic game, and they need to choose their moves carefully in order to win the game, blocking the other team when necessary.

Start with the center hexagon.

Give a clue for the letter in the hexagon, e.g. if the letter was B, the clue might be: A person who bakes bread.

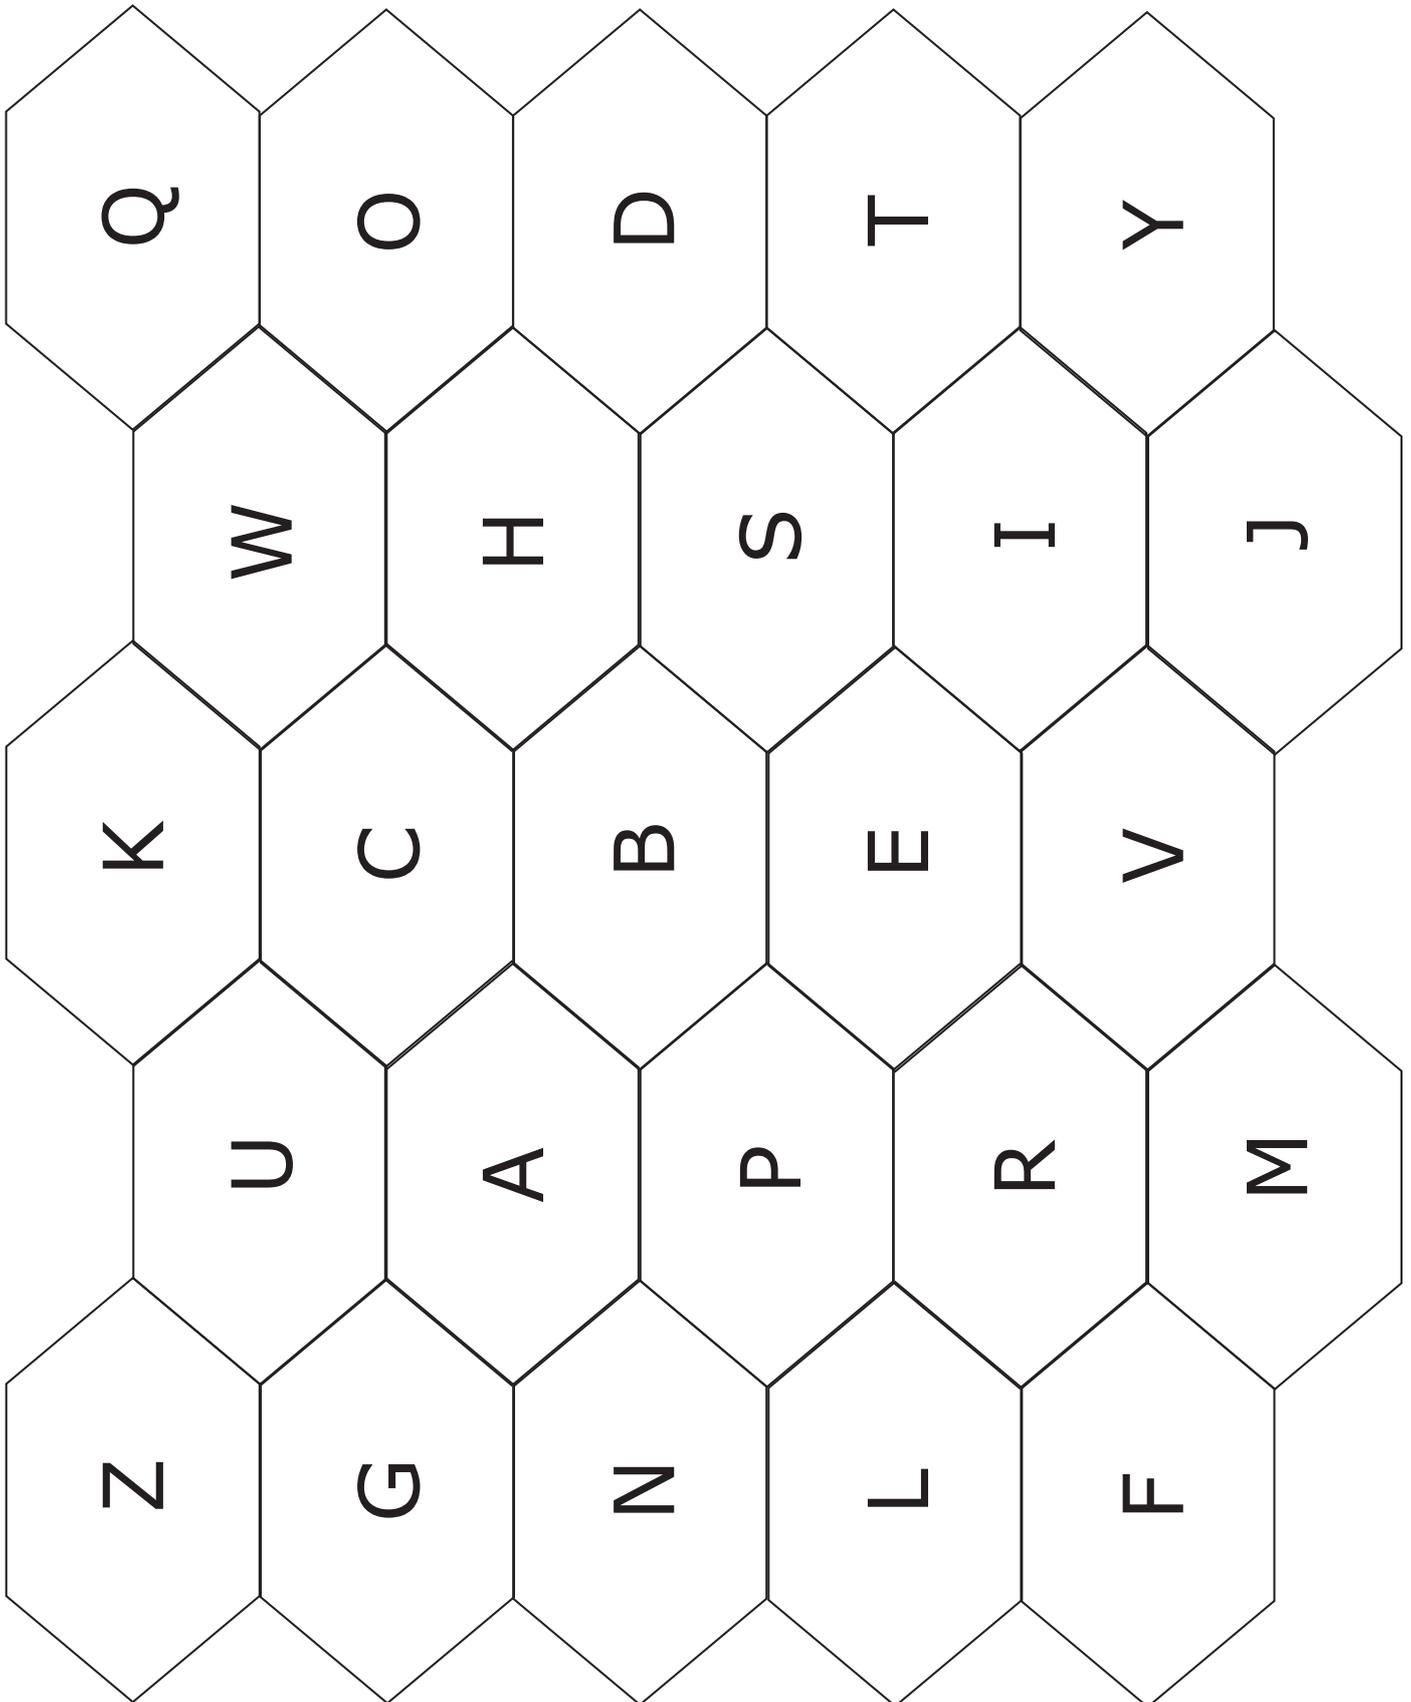

The two teams then race to answer, e.g. baker.

The first team to answer correctly wins the hexagon, and it is coloured accordingly.

The winning team then chooses the next hexagon.

Give a clue for the letter in that hexagon, and both teams race to answer as before.

The first team to connect their hexagons from top to bottom or left to right wins the game.

**A**

Absent: Not present

Always: This A will last forever

Axe: This A is used for cutting wood

Air: This A is a mixture of oxygen, nitrogen and other gases

Act: This A is what you might do in a Shakespeare play or in a movie
